CENTRAL UNIVERSITY OF KERALA

The Central University of Kerala, Kasaragod, came into being in 2009 under the Central Universities Act 2009 (Parliament Act No.25 of 2009). The University is founded on the noble vision of a “Caring Wisdom” and is guided by the lofty ideals of academic and social commitment, moral steadfastness, and intellectual and spiritual enlightenment, as reflected in its vision statement. It is located in a region characterized by linguistic and ethnic diversity and cultural richness, the University seeks to harness the local resources – human, intellectual, social, artistic, and cultural – while bringing in the best that is globally available, thus maintaining a fruitful, symbolic relationship with a region that badly needs an education uplift. North Malabar region, being one of the backward districts of Kerala, need holistic support for development, especially in the areas of education, health, technology, and infrastructure. The university has been working in this regard and also growing in all spheres ever since its date of conception and will definitely bring about a transformation in North Malabar in specific and Kerala in general. As a milestone in its journey towards excellence, the Central University of Kerala has been accredited by NAAC with an A+ grade.

SCHOOL OF EDUCATION

The Department of Education, under the School of Education, was established in the year 2015 and is intended to develop a cadre of professionally qualified teacher educators to meet the needs and challenges of the knowledge society across the globe. The school promotes pedagogical research and endeavours to achieve excellence by facilitating quality teacher education. The two-year MEd program is designed to provide opportunities for students to extend as well as deepen their knowledge and understanding of education in any one of the areas of specialization such as Language Education, Mathematics Education, Science Education, and Social Science Education. The Department emphasizes a paradigm shift to personalized instruction, multiple learning strategies, and a learner-centric classroom environment. The thrust areas of research include environmental education, instructional designs, curriculum innovations, web-based instruction, inclusive education, value education, yoga education, and multicultural education. The NCTE in New Delhi has approved this integrated teacher education program, we are committed to transforming the teacher preparation process as visualised by NEP2020

About the Conclave

Teacher Education provides a platform for student-teachers to acquire the required knowledge, skill, positive attitudes, values, and beliefs. The quality of teachers produced from any institution invariably depends on the curriculum offered to them during their preparatory period. In order to synchronise content and pedagogy and to make a pathway for teacher preparation immediately after higher secondary, visualising the greater envisioning of NEP 2020, the National Council for Teacher Education has come up with ITEP. In the national conclave, high-profile academicians across the nation who hold top positions in a range of education sectors are expected to share their perspectives.

Objectives:

- To internalize the genesis and conceptual framework of ITEP
- To design implementation strategies for ITEP
- To identify and discourse on the various issues and challenges
- To find out a sustainable road map for implementing ITEP

Who can attend

Teacher educators/ Teachers working at Universities / Colleges and other partners of education

Registration

Participants are required to get the registration done by filling up the Google Form. The total number of participants will be limited to 100 numbers
