

**Semester: I**

**Core Course**

**4. Course Code & Title: MPC 51 04 & Research Methodology in Health Sciences**

**Credits: 4**

**Course objectives:**

The objective of this course is to equip students in developing an understanding of different methodological approaches in undertaking a research in health sciences with focus on public health.

**Course outcomes:**

On successful completion of this course, students will be able to:

1. Learn different paradigms and epistemological stands of conducting empirical research.
2. Identify an appropriate topic for research and develop research questions, objectives and hypotheses.
3. Learn how to undertake a systematic literature review in general and for the MPH dissertation in particular.
4. Apply the concepts of research methods in developing data collection tools and techniques.
5. Develop a research proposal employing quantitative and qualitative approaches.

**Skills developed:**

On successful completion of course, the students shall be skilled in quantitative and qualitative research methods and will be able to use NVivo for qualitative analysis.

**Teaching methods:** This course will be delivered using a variety of methods and modalities such as interactive classroom and online lectures, self-study, case studies, written assignment, class room exercises using computers/software, quiz, field visit, group work, field survey, class room presentations in groups etc.

Units and Topics	Teaching Methods								Mandatory Readings
Unit-I: Quantitative Research Methods									
	L	FW	FV	CS	GW	SS	SP	P	
Objectives of the course and the need for undertaking an independent research project for the MPH programme	X					X			
Literature review including various style of referencing, method of reviewing literature and how this has to be reproduced in the dissertation or a research paper with appropriate citation	X					X			Suresh, N., & Thankappan, K.R, (2019). Gender differences and barriers women face in relation to accessing type 2 diabetes care - A Systematic Review. <i>Indian Journal of Public Health</i> , 63, 65–72. <a href="https://doi.org/10.4103/ijph.IJPH_26_18">https://doi.org/10.4103/ijph.IJPH_26_18</a> .
Choosing a research topic in general and specifically for the MPH dissertation Framing research questions and objectives of the study	X					X			Hall, N., & Kothari, R. (1999). Research Fundamentals: IV. Choosing a Research Design <i>Acad Emerg Med</i> , 6(1), 67–74. <a href="https://doi.org/10.1111/j.1553-2712.1999.tb00097.x">https://doi.org/10.1111/j.1553-2712.1999.tb00097.x</a>
Identification of variables, defining each variable and operationalizing them	X					X		X	Mini, G., Sarma, P., & Thankappan, K.,R. (2019). Cluster Randomised Controlled Trial of Behavioural Intervention Program: A Study Protocol for Control of Hypertension Among Teachers in Schools in Kerala (CHATS-K),

								India. <i>BMC Public Health</i> , 19(1), 1718. <a href="https://doi.org/10.1186/s12889-019-8082-5">https://doi.org/10.1186/s12889-019-8082-5</a>
Various study designs including cross sectional, case control, cohort and randomized controlled trials	X					X		Riddell, M. A., Joshi, R., & Oldenburg, B et al (2016). Cluster Randomised Feasibility Trial to Improve the Control of Hypertension In Rural India (CHIRI): A Study Protocol . <i>BMJ Open</i> , 6(10), e012404. <a href="https://doi.org/10.1136/bmjopen-2016-012404">https://doi.org/10.1136/bmjopen-2016-012404</a> .
Different methods of data collection, Questionnaire method, interview schedules, and some physical measurements like weight, height, and waist circumference.	X					X	X	Patra, L., Mini, G. K., Mathews, E., & Thankappan, K.,R. (2015). Doctors' Self-Reported Physical Activity, Their Counselling Practices and Their Correlates in Urban Trivandrum, South India: Should a Full-Service Doctor Be a Physically Active Doctor? . <i>British Journal of Sports Medicine</i> , 49(6), 413–416. <a href="https://doi.org/10.1136/bjsports-2012-091995">https://doi.org/10.1136/bjsports-2012-091995</a>
Organizational aspects of field survey, logistics of field survey organization, training of staff transportation etc.	X					X		Thankappan, K. R., Sivasankaran, S., Mini, G. K., Daivadanam, M., Sarma, P. S., & Khader, S. A. (2013). Impact of a Community Based Intervention Program on Awareness, Treatment and Control of Hypertension in a Rural Panchayat, Kerala, India. <i>Indian Heart Journal</i> , 65(5), 504–509. <a href="https://doi.org/10.1016/j.ihj.2013.08.023">https://doi.org/10.1016/j.ihj.2013.08.023</a>
Estimating sample size for different study designs	X					X	X	Vishnu, N., Mini, G. K., & Thankappan, K. R. (2017). Complementary and Alternative Medicine Use by Diabetes Patients in Kerala, India. <i>Global Health Epidemiology and Genomics</i> , 15(2), e6. <a href="https://doi.org/10.1017/gh.2017.6">https://doi.org/10.1017/gh.2017.6</a>

Sample selection procedure and sample frame	X					X		X	As above
Development of a questionnaire and interview schedule and the difference between the two, translation and back translation of the schedule/questionnaire	X					X		X	Sailesh, M., Pradeepkumar, A. S., Thresia, C. U., & Thankappan, K. R et al. (2006). Tobacco Use Among Medical Professionals in Kerala, India: The Need for Enhanced Tobacco Cessation and Control Efforts. <i>Addictive Behaviours</i> , 31(12), 2313–2318.
Pilot testing of instrument/tool for the study	X					X			
Scales of measurement, reliability and validity and the difference between the two. Organization of data sheets, manual checking of data sheets, grouping them, storage and transportation,	X					X			Mathews, E., Salvo, D., Sarma, P., Thankappan, K., & Pratt, M. (2016). Adapting and Validating the Global Physical Activity Questionnaire (GPAQ) for Trivandrum, India, 2013. <i>Preventing Chronic Diseases</i> , 13, E53.
Data entry using excel and SPSS, data cleaning	X					X		X	
Univariate, bivariate, and multivariate analysis	X					X		X	
Writing a research report with executive summary and a research article of scientific journal with an abstract.	X					X			Aziz, Z., Mathews, E., Absetz, P., & Sathish, T et al. (2018). A Group-Based Lifestyle Intervention for Diabetes Prevention in Low- And Middle-Income Country: Implementation Evaluation of the Kerala Diabetes Prevention Program. <i>Implementation Science</i> , 13(1), 97.
<b>Unit-II: Qualitative Research Methods</b>									
Type of research approaches – Induction and deduction approaches, elements of research paradigm – Ontology,	X					X			

epistemology, axiology and ethics and research paradigm – Positivist, post-positivist and pragmatism.								Al-Saadi, H. (2014). Demystifying Ontology and Epistemology in research methods. <i>Research Gate</i> , 1(1), 1-10.
Qualitative design: Case-study, ethnography, participant's observation, and phenomenology  Qualitative data collection techniques: In-depth interviews and focus group discussions.  Qualitative data collection tools: In-depth interview and focus discussion guides  Sampling techniques and sample size in Qualitative research.	X	X				X		Noble, H., & Smith, J. (2014). Qualitative data analysis: a practical example. <i>Evidence-Based Nursing</i> , 17(1), 2-3.  Devers, K., & Frankel, R. (2000). Study design in qualitative research: Sampling and data collection strategies. <i>Education for Health</i> , 13(2), 263-271.  Giddings, L. (2003). Rigour and trustworthiness in qualitative research. <i>Qualitative Research Methods course</i> , Auckland University of Technology, Auckland.
Mixed-method design: Sequential and concurrent designs and data triangulation.						X		
Type of qualitative data analysis approaches: Framework approach (thematic analysis), quasi-statistical (content analysis), Interpretative approach (phenomenological analysis and grounded theory) and Socio-linguistic approach (discourse analysis).  Rigour and trustworthiness of qualitative research – Four techniques 1.) Credibility, transferability, dependability and confirmability. ### Evaluation:

As per CBCS guidelines, this course will be evaluated for 100 marks with a Continuous Evaluation (CA) component of 40 marks and End-Semester Evaluation (ESA) component of 60 marks.

### Additional readings:

1. Bryman, A. (2016). *Social research methods*. Oxford university press.
2. Maxwell, J. A. (2008). Designing a qualitative study. *The SAGE handbook of applied social research methods*, 2, 214-253.

3. Rehman, A. A., & Alharthi, K. (2016). An introduction to research paradigms. *International Journal of Educational Investigations*, 3(8), 51-59.
4. Sandelowski, M. (1995). Qualitative analysis: What it is and how to begin. *Research in Nursing & Health*, 18(4), 371-375.
5. Liamputtong, P. (2009). Qualitative data analysis: conceptual and practical considerations. *Health Promotion Journal of Australia*, 20(2), 133-139.
6. Higginbottom, G. M. A. (2004). Sampling issues in qualitative research. *Nurse Researcher (through 2013)*, 12(1), 7.
7. Maxwell, J. A. (2010). Using numbers in qualitative research. *Qualitative inquiry*, 16(6), 475-482.
8. Minichiello, V., Aroni, R., & Hays, T. N. (2008). *In-depth interviewing: Principles, techniques, analysis*. Pearson Education Australia.
