Individual supervising teachers have shared their concern in the DRC over the insistence on the part of the University Administration to that they sign ~~on~~ the individual bills of the Contingency bills/vouchers submitted by the research scholars working with them. They will only forward the bills with their signature. As the expenses incurred are committed by the scholars themselves the supervising teachers cannot be made accountable for the expenses. For the last four years the supervising teachers have not been made accountable for the same. Hence the supervising teachers strongly feel that the earlier practice be continued.
