1. Suggestion/Opinion for improving the quality of institution

S.No.	Student Comment/Remarks
1	It would be better if offline classes will be there because of the network issue in online classes. The teacher should describe the ppt elaborately.
2	There should be an international cell so that students can easily get into abroad universities . And mentorship class should be done regularly.
3	1.Provide better placement2. Gym facility3.Better if there would be a swimming pool4.Providing more exposure to students by conducting international paper presentations and discussions5.Introducing a facility where students can work while studying
4	More number of classes could be conducted .Classes could be made offline if possible.
5	It's performing good enough Like shuttle service, construction of new hostels etc.. Coming to academics as my chindi is fro science background we observed that labs are not going well there is no lab assistant, and no strick exposure to lab technics
6	() Hostel Facility should given for distant students and proper guidance of students for their upcoming competitive examination by the respective department faculty.Coaching facilities should be there for CSIR UGC NET and UPSC civil services examination.
7	It would be a great help if we get to know about hostels and it's allocation as early as possible.... Offline classes are preferred the most.
