**Invitation to do research in Supramolecular chemistry at the Department of Chemistry,
University of Iceland from 13/08/2018 to 18/08/2018**

It is my pleasure to invite **Prof. Prathapachandra Kurup** (Date of birth: 26/11/1956) from Cochin University of Science and Technology, India, to do research in supramolecular chemistry at the Department of Chemistry, University of Iceland as an Erasmus+ international Professor from **13/08/2018 to 18/08/2018**. Regarding our university, the University of Iceland (*Háskóli Íslands*), founded in 1911, is the oldest and largest institution of higher education in Iceland. The Department of Chemistry have been organising the seminar program in Chemistry to promote and attract a new generation to the science and engineering field and you will be giving a talk in our seminar program on 17th August 2018.

It would be great to have you here in Iceland and tell us about your interesting research activities, which will encourage our students to stay in academia and do excellent research. The Erasmus+ grant will provide you the air fare and daily allowance during your stay in Iceland. Let me know if you have any questions and looking forward to seeing you in Iceland.

Thank you

Best regards,

Krishna
