

Department of Plant Science

Invited talk on

'Engineering centromeres to produce *in vivo* haploids in plants'

By Dr. Ravi Maruthachalam, Assistant Professor, IISER- TVM

(Covering important aspects of Research methodology in Plant Molecular Biology)

February 28, 2020

Report

Dr. Ravi Maruthachalam, Assistant Professor, IISER- TVM gave an excellent talk on the topic 'Engineering centromeres to produce *in vivo* haploids in plants' on February 28 2020. About 40 participants, comprising of M.Sc. students, research scholars and faculty attended the talk. The session covered how molecular experiments were done to engineer centromeres in order to generate haploid plants *in vivo*. This research work and techniques explained have potential in developing molecular strategies of crop improvement.

Fwd: Inviting to deliver a talk in the plant science department CUK on 28-2-2020 at 11.30 AM to 1.00 PM-reg.

Dear Dr Ravi

Greetings

The department of plant science is pleased to invite you to deliver a lecture on the topic of your expertise attached herewith on 28-1-2020 at 11.30 AM to 1.00 PM

We are thankful for accepting the invitation.

Welcome to CUK

Thanking you

Sincerely

--

Is pleased to organize an

Invited Talk
on

**Engineering centromeres to produce *in vivo*
haploids in plants**

By

Dr. Ravi Maruthachalam
Assistant Professor
IISER- TVM

Date : 28/2/2020

Time: 11.30 AM – 1.00 PM.

Venue: Room 215, Godavari

We invite Interested faculty members and students to attend the session.
