Hey All,

Thanks for the suggestions. This was there in my mind even before assuming the role of sports coordinator. Some of us are already playing cricket.

We will have our matches, games etc after these student tournaments. We can have inter school/teaching versus non teaching as well as teaching versus student matches.

First let me finish these student matches for a few reasons.

1. for many south zone games we need to register our students and all those registration come in September and October.
2. We can't delay student matches/games to October as end sem exams come in October/November minimum and then the participation from the students will be minimum.
3. There was a complaint that last year students did not get enough time for practice after selection. So, I felt we should give them enough time for practice after the selection.

So, we will have student badminton next week, Cricket 15,16 and Football 22,23 October. Selection as well as inter school matches. That's the plan.

And then comes the athletic meet of CUK. Last year we saw very small participation from teaching community. This year I expect all of you taking part in all competitions.

After finishing some of the above games, we will arrange matches/games for teaching and non-teaching community as well. Personally too I am quite interested to be a part of maximum games/matches!!

regards  
Prasad
